## **L&B Innovations for April 2006 Overview of INSTABUS articles**

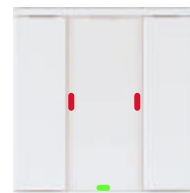

- **Push-button, 1 – 4-gang plus System M**
- **Push-button, 1 – 4-gang plus System Design**
- **New push-button, 4-gang plus with IR receiver**
- **Multi-function push-button with 2-gang and 4-gang TCU System Design**
- **Protective cover for plaster System M and System Design**

**NEW**

# L&B Innovations for April 2006

## Switch sensors, 1 – 4-gang plus System M

- A new push-button generation as a complete device
- White, polar white, anthracite, aluminium
- As of May also available in Thermoplastic brilliant, white, polar white and glossy active white
- With extended software functions:  
Switching, dimming, single and dual-surface blinds + pulse edges with 4-bit and 8-bit telegrams, pulse edges with 2-byte telegrams, 8-bit linear regulator, scene retrieval and saving, disable function
- All status LEDs can be triggered independently
- Red status LED, green operating LED
- Same universal software for 1-gang, 2-gang and 4-gang push-button plus; that gives high planning security and a uniform appearance
- Delivery includes protective cover for plaster
- Available since February 2006

### Switch sensors, 1 – 4-gang plus System Design

- A new push-button generation in the new System Design, complete device with rectangular keys and a large labelling field
- White, polar white, aluminium and **stainless steel**
- With extended software functions:
  - Switching, dimming, single and dual-surface blinds
  - pulse edges with 4-bit and 8-bit telegrams,
  - pulse edges with 2-byte telegrams,
  - 8-bit linear regulator,
  - scene retrieval and saving,
  - disable function
- All status LEDs can be triggered independently
- **Blue** status LEDs, **blue** operating LED
- Same universal software for 1-gang, 2-gang, 3-gang and 4-gang push-buttons plus. That gives high planning security and a uniform appearance

**L&B Innovations for April 2006**

**Multi-function push-button with 2-gang TCU System Design**

- Software as for multi-function push-button with TCU for System M
- White, polar white, aluminium, **stainless steel**
- Application module can be plugged onto flush-mounted module for multi-function push-button with room temperature control unit art. no. 623299
- Large white backlit display and large-format temperature display digits
- **Blue** status LEDs, **blue** operating LED
- Large labelling field
- Delivery includes protective cover for plaster and 2 prelabelled foil strips for the labelling fields
- Available September 2006

### Multi-function push-button with 4-gang TCU System Design

- Software as for multi-function push-button with TCU for System M
- White, polar white, aluminium, **stainless steel**
- Application module can be plugged onto flush-mounted module for multi-function push-button with room temperature control unit, art. no. 623299
- Large white backlit display with large-format temperature display digit
- Large labelling field
- **Blue** status LEDs, **blue** operating LED
- Delivery includes protective cover for plaster and 2 prelabelled foil strips for the labelling fields
- Available October 2006

Frame, art. no. 4819xx

**NEW****L&B Innovations for April 2006****Protective cover for plaster for System M and System Design**

- Transparent cover for application module
- Button actuation and LED display possible
- With labelling option and labelling pen
- Ideal when renovating or during the construction phase
- **Important:**
  - The frame is not covered up, only the application module
  - Room temperature control units can measure the room temperature only to a limited extent with the cover!
- Included in the scope of delivery for new push-buttons plus (scratch protection in the box)
- Available July 2006
