Energy Efficiency for ACI Commercial Buildings

Energy Efficiency for Commercial Buildings

4th to 5th February 2009

Maximising Benefits of Cutting-Edge Technologies to Reduce your Energy Cost

As a subscriber of KNXassociation, you can take advantage of a 15% discount if you book by the 5th of December. To get a full agenda and to take advantage of the discount, please contact Jihane Derdour of ACI on +44 207 981 2503 or jderdour@acius.net.

ACI's Energy Efficiency for Commercial Buildings Conference will consider the key roles of cutting-edge technologies in the meaningful reduction of energy cost and consumption for leading commercial organizations. This will in turn result in reducing the carbon foot-print of your organization. Our leading panel of speakers will address the latest challenges and developments within this rapidly changing sector as well as look at different ways to achieve real cost-savings while maintaining productivity.

A conference looking at:

ACI's meetings offer the perfect opportunity to discover the latest updates and discuss your own challenges and solutions with your peers through an interactive and informative 2 day programme.

- Developing an Effective Energy Strategy.
- Reducing Electricity Consumption While Maintaining Productivity.
- Evaluating Innovative Ways to Increase ROI in Short Time-Scale
- Effectively Measuring Carbon Footprint and Monitoring Energy Use
- Innovative Solutions and Best Practices in Reducing Energy Consumption
- Analysing How Cutting-Edge Technologies Can Rapidly Reduce Energy Consumption.
- The Future – Understanding the UK's Medium to Long – Term Energy Plan and Corporate Synergies
