

Keypad with Temperature and Humidity Sensor

1. Keypad Features

Cascoda's KNX IoT Keypad provides a 2 gang switch with Temperature Humidity Sensor. The keypad can be used as 2 rocker switches or as 4 individual switches. The keypad can send out the following KNX messages:

- Switch (on/off)
- Dimming
- Colour RGB
- Scenes
- HVAC comfort modes
- Generic DPTs
- Temperature values
- Humidity values
