

Recap #KNXis30

BIRTHDAY WISHES IN FEBRUARY

The month of February was fully dedicated to the KNX community and their individual birthday wishes. Thanks to the contribution of videos from the entire KNX community, KNX is looking at its biggest video compilation in its 30 year history

KNX Userclub Tunisia celebrates the 30th birthday of KNX

#KNXis30 Birthday wishes from Nigeria

February transformed the KNX social media wall from vintage to a playground for video creators. The whole KNX Community was invited to share their birthday wishes, and so they did! With entries from Europe, Africa, Asia, Down Under and beyond, the KNX community outdid itself once again! Within a couple of days, the 30th anniversary attracted birthday videos, which presented members of the KNX community also from their personal side. Also the next generation of KNX followers has contributed a lot to the overall success. Thanks to the support of the next KNX generation, KNX has never felt any younger, proving that age is just a number.

Once word spread, the entries of the videos further skyrocketed. The last days of February saw a high number in birthday video submissions and numerous request to extend the action. So KNX Association did, what it had to do: Extend the action to March! Now with the extended timeframe, the best action of KNXis30 so far has been extended for another month! Within the first week of the extended action, the amount of videos for has almost doubled.

30TH
ANNIVERSARY

Tutor Amir and his students were the first to send their wishes

A special word of appreciation to our community!

The beginning was made by Amir S. Abyaneh from the Iranian KNX Training Centre "STCenter". After this video was posted on social media, the other contributions come in like an avalanche. KNX Association is especially proud of the contributions by various community profiles from all over the world. The video competition shows once more that the success of KNX is thanks to the whole KNX community, no matter if integrator, manufacturer, training centre, scientific partner, Userclub, test lab, or just interested in the technology.

KNX Italy takes the opportunity to send their wishes for #KNXis30

3 KNX Generations of Belgian KNX fans wishing happy birthday

KNX Association would like to thank all KNX National Groups France, China, UK, Korea, Taiwan and Italy, who handed in videos with their birthday wishes, representing their national community. Thanks to your national presence, we can bring the festivities to every corner in the world.

Also a big shout-out to our KNX Members, who took their time to send us their birthday videos, either from their home bases or during busy fairs, such as ISE2020 in Amsterdam.

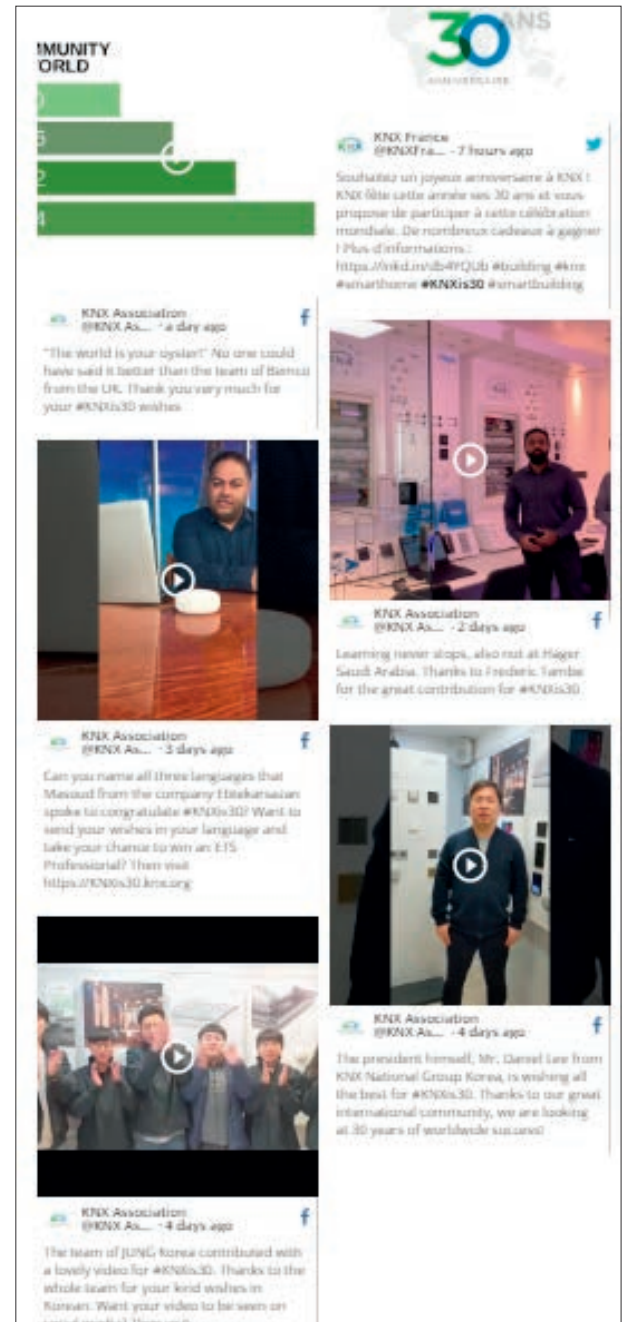

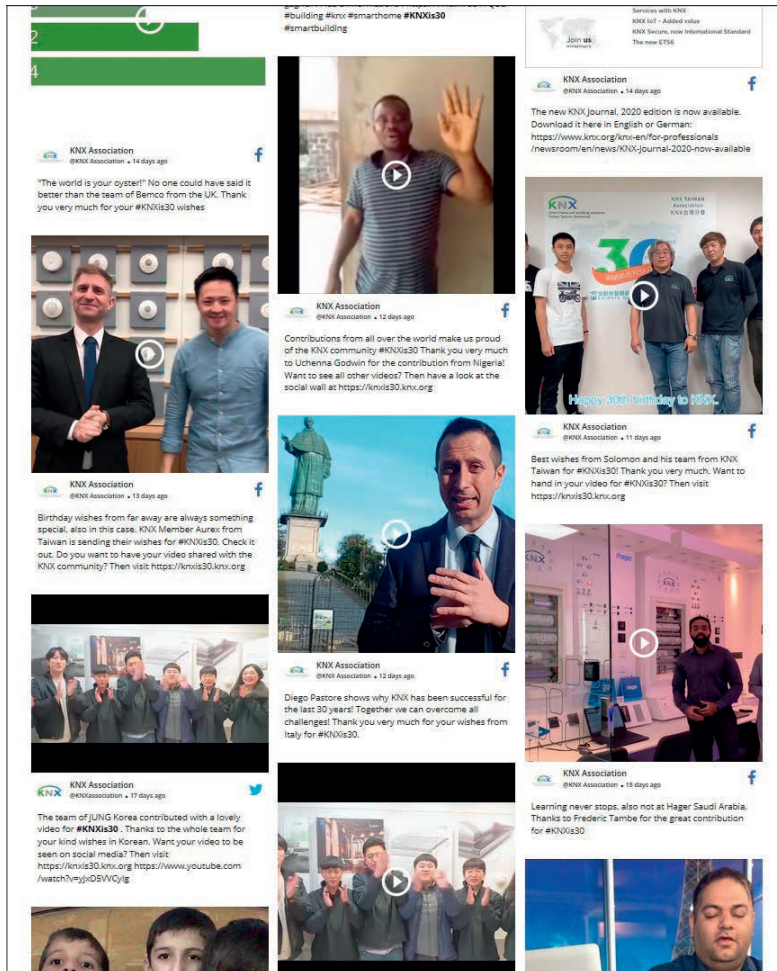

Lastly, we would like to thank the whole community, no matter if Userclub, training centre, scientific partner, KNX Partner for every single contribution from:

- Iran
- China
- Greece
- France
- Belgium
- Turkey
- Germany
- Nigeria
- South Korea
- Malaysia
- Egypt
- Saudi Arabia
- Austria
- Albania
- Taiwan
- Russia
- Qatar
- Croatia
- Poland
- United Kingdom
- Spain
- Tunisia
- Czech Republic
- Denmark
- Netherlands
- Italy
- India

All nice birthday wishes have shown that the whole world is celebrating not only 30 years of KNX, but 30 years of constant reliability and sustainability. Once again, KNX Association would like to thank everybody for making #KNXis30 a big success!

Lucky Winners in February

KNX Association congratulates all winners of the raffle, at which an ETS Licence with all ETS Apps by KNX Association were the main prize. Should you wish to see, who won the raffle, check out the KNX Facebook page and have a look, whose name was drawn out of the bowl by the hand of luck.

The social media wall on <https://knxis30.knx.org>

Should you wish to watch all videos, then visit <https://knxis30.knx.org>.

Stay tuned for the next action in April and which the whole KNX community will have again the chance to win ETS licences and participate in something big!
