

Recap #KNXis30

VIDEO COLLECTION MARCH

KNX Member Lebenor Celebrating #KNXis30 with Rangoli

One of many birthday wishes from Spain. Here by Miguel from Integral Electrica

Antonio delivering his wishes from sunny Spain

Due to the great success of the February activity of #KNXis30, KNX Association extended the birthday video collection to March. Thanks to the contribution from the entire KNX community, the birthday video collection has been extended, reaching new heights in terms of KNX Community involvement!

Contributions from the entire KNX Community continue

From KNX National Groups, KNX Userclubs, KNX Partners, KNX Training Centres, KNX Scientific Partners and those that are just interested in KNX – The contributions in March have surpassed anything that we have ever seen. KNX Association is especially proud about the videos from every corner in the world, which shows that the KNX Community is constantly growing all over the globe.

KNX – The Rock in the surf in times of Covid-19

The whole world is experiencing a situation, which has never been seen before. Also the KNX Community has been hit by the sudden outbreak of the Corona Virus, seeing many in lock-down and forced to work from home.

The more refreshing it is to therefore see that our KNX Community is keeping the spirit not only high, but to an extent that nobody would have expected before: The video collection of March is proof that KNX is able to bear with any kind of crises and that the KNX Community stays strong together all over the world.

This is truly moving and deserves a great applause from everybody to the entire KNX Community.

The next highlight is yet to come – Join us!

The upcoming months will bring free ETS Licences, lucky drawings and many other highlights, which will not be forgotten by the KNX Community. To be up-to-date, get in touch with your KNX National Group and keep an eye on <https://knxis30.knx.org>

We are looking forward to experiencing the next highlights with you!
