KNX Secure Product by Controltronic: GT – Glas Touch Sensor

KNX Glass Touch Sensor and KNX Room Thermostat with KNX Data Secure: The CONTROLtronic glass touch series Living Emotions® offers innovative technology and superior design: Real glass in different colors and finishes, Icons self-exchangeable for one to seven sensor fields, Color LED illumination RGBW, Proximity detection, Temperature and air humidity sensor and Flat in-wall mounting with invisible magnetic fixing. With the support of KNX Data Secure, the CONTROLtronic KNX Glass Touch Sensors and KNX Room Thermostats make it possible to set up a secure and protected KNX installation. In commercial buildings, hotels and in outside and public areas of residential buildings – so wherever the KNX Line is free accessible – protection of the installation by data encryption is essential.
